

Overdose Awareness Benefit
with David Francisco &
Daje Morris

THE HIVE | SEPTEMBER 10TH | 6:30 P.M. | \$10

854 N CENTRAL ST KNOXVILLE TN

Caleb lost his battle with opioid addiction on Christmas morning at the age of 20. His battle was no match for the fake pressed pills containing an analog of Fentanyl. Since losing Caleb, Heather, his mother has joined and works alongside several groups including Fentanyl Legislation Nationwide, local anti-drug coalitions, Tennessee Overdose Prevention, Fed Up, and started Caleb's Song. All to raise awareness, implement new laws and cherish the memory, not only of Caleb, but all who has lost the battle to addiction. Caleb's mom plans to continue to work towards getting Naloxone in the hands of all first responders and educating against the illness. If you can not attend, you can help the efforts of awareness here <https://www.gofundme.com/2gyj5q78>. Nancy Carter Daniels with Tennessee Overdose Prevention will be speaking, as well as, many others.
